

# STEADY

Stuff they don't teach you in graduate physics

# STEADY Workshop Goals

- Create an interactive and enjoyable workshop series where new graduate students and summer research interns can learn some valuable research and communication skills
- Build community among graduate students and post-docs in the department

# STEADY Workshop Goals

- Create an interactive and enjoyable workshop series where new graduate students and summer research interns can learn some valuable research and communication skills
- Build community among graduate students and post-docs in the department

# How it will work

- Each workshop is ~90 minutes long in Trottier 2100
  - Full schedule on Indico and in hand-outs
- Coffee and snack break in between (~30 minutes)
- Attendance taken for each workshop
  - Attend at least 5/11 workshops and get a CCR item!
- End of week party -> TSI Lawn at ~5:15 PM, everyone is welcome!
- Stay in touch on Slack!
  - Channels for each workshop, look under “Add Channels”
    - Eg: For today checkout #workshop-lit-review
