

Neutrinoless double beta decay search in Xe - next-generation experiment workshop

Wednesday 12 November 2025

Blue Sky Session: (Chair: Nigel Smith) (16:30-17:54)

time	[id] title	presenter
16:30	[59] Shielding and Outer Detectors	Dr VALLIVILAYIL JOHN, Teena
16:44	[57] What is the limit of topological background rejection with a gas TPC?	Dr MISTRY, Krishan
16:58	[56] Are five tonnes of xenon enough?	Dr VIEL, Simon
17:12	[54] Reaching the Normal Hierarchy for double beta decay	Dr SINCLAIR, David
17:26	[58] X/Y multi-site reconstruction in dual-phase xenon detectors	Dr LENARDO, Brian
17:40	[62] A journey to ITACA	Dr SOLETI, Roberto
